

Brother's AC Induction Washdown Gearmotor Powers Cannabis Trimming Machine to be Showcased at MJBizCon

Energy Efficient Motor Supports Operation of GreenBroz Dry Trimmer M

Bridgewater, NJ – **Brother Gearmotors**, a division of Brother International Corporation that offers a wide range of ultra-reliable, sub-fractional AC gearmotors and reducers for the food & beverage, packaging and material handling industries, has entered the cannabis market with the incorporation of AC Induction motors into a premium cannabis dry trimming machine. The **GreenBroz Dry Trimmer M** will be showcased November 14-16 at **MJBizCon** in Las Vegas, the world's largest cannabis industry conference.

Brother gearmotors are cost-effective, compact and long lasting, and offer several advantages including:

- Virtually maintenance free; lubricated and sealed for life
- Extremely configurable; several shaft configurations and custom options available
- High efficiency, further enhanced with quiet helical and hypoid gearing

The GreenBroz Dry Trimmer M features a patented design that ensures gentle rolling of cannabis flowers, and a trim functionality allowing material to maintain its curves and unique shape throughout the trimming process. The machine is exceptionally quiet, as its 40-watt conveyor motor produces minimal noise and requires no vacuums or large attachments. Its patented blade design enables trimming at the expedient pace of 8-12 pounds per hour.

“The Cannabis industry just makes sense for us. Our power range is from 1/50th HP to 3HP and this is exactly what this industry is using for their processing equipment. Also, our ability to offer different technologies, like Brushless DC, AC induction and Permanent Magnet motors will help the machine builders select the perfect gearmotor for their application needs, said Matthew Roberson, Vice President of Brother Gearmotors. “We also offer a range of electronic controls that will help them fine tune their machines”

###

About Brother Gearmotors

A division of Brother International Corporation, Brother Gearmotors offers a full line of gearmotors and accessories to meet virtually any manufacturing power generation need.

The company's portfolio includes interior permanent magnet motors (IPM), brushless DC, AC Induction and other high-quality gearmotors and reducers for industries such as food & beverage, packaging and material handling. All Brother Gearmotors products are backed by an industry-best five year limited warranty.

As one of the world's largest fine-pitch gear manufacturers, Brother Gearmotors leads the industry's push for smaller, lighter more reliable and energy-efficient power transmission and motion control components. In the U.S., customers are serviced from a state-of-the-art, manufacturing and distribution facility in Bartlett, TN.

Currently, Brother and its subsidiaries employ over 1,000 people in the Americas. For more information, visit www.BrotherGearmotors.com

About GreenBroz Inc.

GreenBroz Inc. is committed to providing industry-leading automated harvesting solutions for the legal cannabis industry. Through a commitment to detail, hard work, outstanding customer service, and fine American craftsmanship, GreenBroz is helping cultivators of all shapes and sizes realize their own version of the American Dream.
